Escribir acordes de acordes de séptima mezclados

Cada pentagrama trae la **nota más grave** del acorde. Añade las otras tres para formar el acorde indicado en la posición que se pide (la nota dada es la fundamental: añade la 3ª, la 5ª y la 7ª por encima; la nota dada es la 3ª: añade la 5ª, la 7ª y la fundamental por encima; la nota dada es la 5ª: añade la 7ª, la fundamental y la 3ª por encima; la nota dada es la 7ª: añade la fundamental, la 3ª y la 5ª por encima). El tipo cambia en cada ejercicio: se indica junto a la nota.

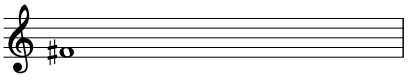

De menos a más: notas naturales en clave de sol, después sostenidos, bemoles y clave de fa, y al final dobles alteraciones.
