Analizar tríadas en posición fundamental

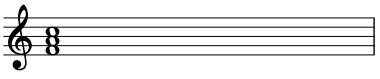

Todos los acordes están en posición fundamental. Escribe debajo de cada uno su **tipo**: Perfecta Mayor (PM), Perfecta menor (Pm), 5ª Disminuida (5dis) o 5ª Aumentada (5Aum). Fíjate primero en la clave.

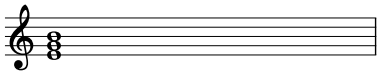

De menos a más: notas naturales en clave de sol, después sostenidos, bemoles y clave de fa, y al final dobles alteraciones.
