Escribir tríadas en las tres posiciones

Cada pentagrama trae la **nota más grave** del acorde. Añade las otras dos para formar la tríada indicada en la posición que se pide: en fundamental la nota dada es la fundamental, en 1ª inversión es la 3ª y en 2ª inversión es la 5ª.

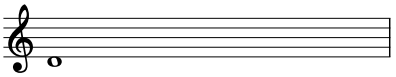

De menos a más: notas naturales en clave de sol, después sostenidos, bemoles y clave de fa, y al final dobles alteraciones.
